

55th

Montréux

Jazz

Festival

22. July

With your help we want to show the uniqueness of jazz. Because isn't that what makes it beautiful to all of us? We want to show all the different shades and characters, all the beautiful and dirty parts to the world. We want to show that jazz can be so many things and mean so many different worlds to

everyone of us. To take part in our mission just grab a pen of any colour and listen to your favorite song. Close your eyes and get lost in the music. Breathe it in. Feel every little part, every instrument, every tone of it. How does it build up? What motion do you feel? Is it smooth or funky, straight or weavy?

Slowly let your hand dance to the rhythm and express your emotions all over these posters right here. If you want you can add the name and artist of the title you listened to afterwards. Show the world what jazz means to you. You can also join the movement online.
